## SUMMARY

Detail-oriented software engineer with a Bachelor of Engineering in Software Engineering. Experienced in full stack development, machine learning, and cloud hosting. Skilled in Python, Django, NodeJS, and various web technologies. Certified in Project Management Basics and Product Management Analytics. Proficient in design thinking and adept at creating innovative solutions. Strong background in project management, software design thinking, SEO, UML, and REST APIs. Versatile developer with expertise in backend and frontend technologies. Passionate about utilizing technology to drive business goals efficiently.

## OBJECTIVE

Develop innovative software solutions as a Full Stack Software Engineer by leveraging my expertise in both front-end and back-end technologies. Committed to contributing to cutting-edge projects and driving software development initiatives.

## PROFESSIONAL EXPERIENCE

### SOFTWARE ENGINEER

**Hackathon** . Buea, cameroon | November 2022 - November 2022

Led sustainable tech solutions at hackathon, showcasing problem-solving, teamwork and innovation.

### SOFTWARE ENGINEER

**Zepstra ltd** . Molyko, Buea, cameroon | 07/2023 - 12/2023

Developed and maintained software applications, conducted code reviews, collaborated with cross-functional teams, and contributed to the overall software development lifecycle.

## EDUCATION

### BACHELOR OF ENGINEERING IN SOFTWARE ENGINEERING

**Faculty of Engineering and Technology, University of Buea**. Molyko, Buea, cameroon | November 2020 - December 2024

Studied a wide range of software engineering principles, including software development, programming languages, algorithms, data structures, and project management. Completed hands-on projects to apply learned knowledge effectively.

## COURSES AND CERTIFICATES

### PROJECT MANAGEMENT BASICS

**Pendo**. Online | 2023 - 2023

Software engineer and CEO of  
Zepstra Ltd company , Buea,  
Cameroon

+237679333703

Covers foundational principles of product management, including product lifecycle, stakeholders alignment, and effective prioritization to drive product success from concept through launch.

### **PRODUCT MANAGEMENT ANALYTICS CERTIFICATION**

**Pendo.** Online | 2023 - 2023

Focuses on using data-driven insights to understand user behavior, improve product experience, and guide strategic decisions by leveraging analytics tools for measurable impact.

### **DESIGN THINKING PRACTITIONER**

**IBM.** Online | 2023 - 2023

Demonstrates knowledge of core design thinking principles, including user-centric problem-solving and iterative design processes to foster innovation in software development.

### **DESIGN THINKING CO-CREATOR**

**IBM.** Online | 2023 - 2023

Focus on collaborative skills to engage cross-functional teams and stakeholders, applying design thinking to co-create solutions that address user needs effectively.

### **DESIGN THINKING TEAM ESSENTIAL FOR AI**

**IBM.** Online | 2023 - 2023

Covers design thinking specifically for AI projects, emphasizing ethical AI design, user-experience in AI system, and team collaboration to build responsible, impactful AI solutions.
